

9th ASEAN Conference on PRIMARY HEALTH CARE

24~26 April 2015 Kinta Riverfront Hotel & Suites, Ipoh, Malaysia

Jointly organised by

Perak Medical
Practitioners'
Society

Postgraduate
Medical Education
Society

9th ASEAN Conference on Primary Health Care 2015 is organised by the Perak Medical Practitioners' Society (PMPS) and Postgraduate Medical Education Society of Hospital Raja Permaisuri Bainun Ipoh. This year's theme is **Primary Care for All Ages**. The theme was chosen to emphasize the central role of primary health care professionals in health issues across all age groups. The conference will have updates on important primary health care topics in the different medical specialities. The topics include among others **Updates on TB, Diabetic Emergencies, Obesity, Wound Care** and **Adult Vaccination**. There will also be a practical session on basic life support and a **Pre-conference Workshop on Occupational Health**. Speakers for the different

sessions will be experts in their field. This would be a great opportunity for doctors and allied staff to gain knowledge and skills required for their daily work. The organising committee welcomes the participation of primary health care professionals from both private and public sectors to this conference.

CONFERENCE OBJECTIVES

- ☞ Promoting advances in primary health care
- ☞ Building bridges between the private and public sectors
- ☞ Assisting the busy clinician in honing clinical skills
- ☞ Empowering paramedics in relevant skills and knowledge
- ☞ Providing a platform to promote evidence-based medicine
