

Would you let your insurer decide who you should marry? Why let them choose your lawyer.

Like a marriage, choosing the right person for the role is probably the most important decision you'll make.

Only Doctor Shield lets you select the lawyer you want to represent you, not the most convenient one for your insurer.

Choosing your lawyer gives you the freedom to make key decisions along the way that not only have a big influence on the eventual outcome, but result in faster settlements and reduced overall costs and time.

Visit www.thedoctorshield.com for details, and to enroll online in less than ten minutes.

Now that's different.
