

NURSING CONFERENCE 7.0 / TRAINING COURSE FOR CLINIC PERSONNEL 9.0

The event was held at Amanjaya Specialist Centre, Sungai Petani, Kedah from 8th to 9th September 2017. This event is conducted annually by the Private Medical Practitioners Society of Kedah/Perlis. Due to many public holidays in the month of September, the turnover is lower compared to the previous year. Furthermore, many private hospitals had already sent their nurses to the Post Basic Course resulting in the low turnover for the Nurses Category. However, the final count of the participants was 43 comprising 11 nurses and 32 clinical personnel who attended this year event. A total of 12 speakers from various disciplines such as doctors, physiotherapist and AIMST nursing lecturers were invited to speak on various topics / subjects. The participants were divided into two groups (nurses and clinical personnel) and the programmes ran concurrently.

Dr. Umasundari and Dr. Tajudin's family managing the Reception Counter
