Faculty:

Prof Dr Ruggiero Francavilla is currently the Associate Professor in University of Bari, Italy. He is also a Senior Lecturer and Chief Paediatric Gastroenterology at Children Hospital, Giovanni XXIII Policlinico di Bari. He obtained his degree in medicine in 1993 and post-graduate in General Paediatrics in 1999. He further sub-specialized in Paediatric Hepatology in 1999 and Gastroenterology and Endoscopy in 2005. He obtained his PhD in Physio-pathology of Digestion and Nutrition, II University of Naples Italy in 2001. He is actively involved in the medical societies and served as Scientific Secretary of the Italian Society of Paediatric Gastroenterology Hepatology and Nutrition from 2007-2010 and President of the Regional Celiac Disease Society in 2010.

He is also actively involved in clinical research, authored, co-authored, published and presented numerous studies locally and internationally. His area of research are celiac disease prevalence and prevention, probiotics in all different aspects of disease in childhood, functional disorders incidence and treatment, Helicobacter Pylori treatment and role of probiotics and fecal microbiota modification in autism and pervasive developmental disorders.

He is the inventor of two patents; one for the treatment of gastrointestinal disorders in Celiac Disease, and the other for the diagnosis of Non Celiac Gluten Sensitivity.

His research projects has won him numerous awards over the years such as Bioagaia Ivan Casas Probiotics Award 2013, 2nd World Congress of Paediatric Gastroenterology, Hepatology and Nutrition Young Investigator Award in 2004, just to name a few.
